Subject: PVC Pipe Prices – Ag and Turf Irrigation

Due to continuing volatility with resin and additive prices/availability, we are increasing our PVC pipe prices approximately 6% effective July 26, 2021.

Orders and quotes with expired terms will be re-priced and all new orders are subject to product availability.

If you have any questions regarding this price increase, please contact your local North American Pipe Sales Representative.

We appreciate your business and patience as we work our way through these difficult times.
