

April 21, 2021

---

Dear Water & Waste Management Customer,

The cost of materials - including polypropylene, rubber and packaging - within our accessories portfolio continues to escalate. To that end, we will be passing through a 5% increase effective next Monday, April 26th on the Fitting and Lid and Valve & Coupler lines. We will provide updated price sheets by the end of this week.

We appreciate your continued partnership.

Sincerely,

A handwritten signature in black ink that reads "Jeff Helton".

Jeff Helton  
Sales Manager-WWM
