April 19, 2021

Dear Valued Regal Customer,

While we make every effort to control our costs, we continue to see unprecedented inflation on raw materials, electronic components, transportation and operational expenses. As we strive to maintain the level of innovation, service and quality that you deserve, it has become necessary to adjust pricing for our Century® Pool Distribution Products. Effective with shipments made on or after June 21, 2021 pricing will increase an average of 4.5%. This increase will apply to all, but is not limited to, Century® Pool Distribution Products included in the Pool Distribution Pump Motors for Swimming Pools, Spas and Jetted Tubs Catalog.

Regal remains committed to our ongoing cost control initiatives, the development of new and innovative technology and providing outstanding customer service to support your business needs and expectations.

Please share this information with your employees in order to implement the price adjustment; however, because our pricing information is confidential, we request that you not share this communication outside of your company. Please feel free to direct any questions you have concerning these changes to your Regal Sales Representative.

Thank you for your business and continued support.

Sincerely,

A handwritten signature in black ink, appearing to read "James Hou".
