Dear Valued Partner,

We thought last year was exceptional, but we were clearly only getting started. Unfortunately, as we're sure you're aware, prices have gone up on nearly all of our components. Given that, we will also be forced into a price increase shortly.

To that end, we'd like this letter to serve as warning that our prices will increase by 5% on the first of June, 2021. We understand the difficulties that this increase will cause, and so are accepting all orders at current prices until that date.

Should you have any additional questions do not hesitate to ask.

Best Regards & thank you for your loyalty..
